AbleEdge Smart Breakers

Eaton AbleEdge smart breakers convert Eaton BR loadcenters into modular smart panels, enhancing flexibility and scalability. This reduces equipment costs, installation time, and simplifies home electrification and decarbonization. Collaborations with leading home solar and energy storage companies promote a sustainable, electrified future.

Complete Home Surge Protection

External Surge Protection Devices

Circuit Breaker with Surge Protection Devices

Plug on module surge protection devices

Eaton CH surge-integrated loadcenter

- Complies with UL 489 and UL 1449 4th Edition for surge protection
- Offers internal and external installation options
- Features clear LED indicators for device status
- Protects appliances, TVs, electronics, and smart home devices
- Includes a limited product warranty and top connected equipment warranty

Eaton and ChargePoint have teamed up to provide the first turnkey EV charging solutions in the U.S., Canada, and Europe. This partnership merges Eaton's power management expertise with ChargePoint's technology, enabling streamlined design, installation, management, and advanced bidirectional and V2X charging capabilities.

ChargePoint Home Flex

- Charges up to 9X faster with a standard 110V outlet
- Supports flexible current settings from 16A up to 50A to charge every EV model.
- UL Listed and ENERGY STAR certified for optimal safety, reliability, safety and efficiency
- The high-quality 23-foot cable is easy to hang up when you're not charging and stays pliable even in cold weather.
- Sleek, thoughtful design with a small footprint to easily fit any garage or exterior location.
- Backed by a 3-year warranty and 24/7 customer support.

EATON WIRING DEVICES

WI-FI SMART DEVICES

- Control your home remotely from anywhere in the world.
- Personalize settings with scenes, dimming, ON/OFF controls, and schedules.
- Easily integrates with Amazon Alexa or Google Home for voice commands.

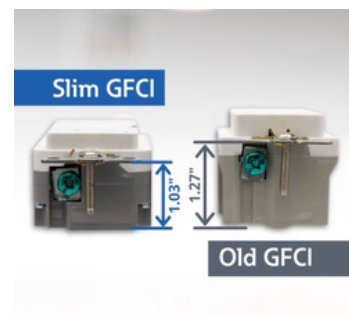

NIGHTLIGHT & COMBINATION RECEPTACLES

- Enhances safety with improved way-finding in the dark
- Dimmable by pressing and holding the lens
- Lasts over 50,000 hours
- Automatically turns ON in the dark and OFF in light via a photo sensor
- Tamper-resistant shutters for code compliance and object prevention
- Nightlight GFCIs ensure compliance and perform self-tests automatically

SLIM GFCI

Eaton's Slim GFCI receptacles prioritize quick installation, safety, and ease of use. They feature a slim in-box depth for easy setup, an appealing design, and comply with the latest UL and NEC safety standards, making them suitable for residential, commercial, and industrial applications.

DIMMERS

- Compatible with LED, CFL, ELV, MLV, INC/HAL, and FLR lighting loads
- Multiple styles and interchangeable faceplates in four colors
- Adjustable high-end and low-end trim
- Available in single pole or 3-way configurations
- Selectable ON, OFF, or fully adjustable rapid start
- Suitable for residential and commercial use

GARAGE HEATER

FLCH4R

Turn your cold garage into a year-round usable living space with this robust, reliable fan-forced garage heater. The included bracket makes for easy installation on the wall or ceiling of your garage, workshop or stockroom. The included remote control and timer feature make it simple to set the right temperature and to make sure the heater is only running when you need it.
